### CLAFLIN 40 YEARS IN THE BUSINESS

NEW YORK, June 25.-John Claffi has been associated with the dry goods trade for more than 40 years. He is regarded as the A. T. Stewart of his time. At the age of 30 he entered his father's firm, then known as H. B. Claflin & Co. Three years later he became a member of the firm and in 1890 formed the corporation which went under today. He is a trustee of many financial and charitable organizations
The Claffin firm grew to its great
position in the dry goods world from ar numble enterprise established by Claf-lin's grandfather in Milford, Mass., nearly a century ago. It was there that Horace Bingham Claffin, his father, was born in 1811. The latter in 1831 succeeded to the elder Claflin's business and later opened a branch in Worcester.
Mass. In 1843 he removed to this city
and organized the wholesale dry goods
house of Bulkley & Claffin. This, in 1851, became Claffin, Mellin & Co. Temporarily embarrassed during the Civil War by the repudiation of debts by Southern customers, it was tided over and in 1863 became H. B. Claffin & Co. The firm was again in trouble during the panic of 1873 and again saved from

Flood and Fall of Man Told on Deciphered Tablet Written 2500 B. C.

PHILADELPHIA, June 25 .- Reports abled from London describing a new ersion of the flood and the fall of nan, deciphered from an ancient Sumerian tablet by Dr. Stephen Langdon, Professor of Assyriology in Jesus College, Oxford, were confirmed esterday by officials of the University of Pennsylvania museum. On comparing the tablet which Di Langdon has just translated with a similar fragment translated by Dr. Proebel, the university authorities found that the two tablets evidently had been written by the same person about 2500 B. C., or 400 years before the time of Abraham.

The fragment translated by Dr. Langdon tells of the flood and uses the Sumerian equivalent for Nuhu or Noah as the man who saved man from destruction. It differs from the Biblical account of creation in reciting that it was Noah who sinned by eating of the tree of knowledge and thus brought about his fall. ## Item Welcomed By Many Men

This will prove a welcome bit of information for all those who are overworked, gloomy, despondent, nervous and have trembling limbs, heart paipitation, dizziness, cold extremities, insomnia, fear without cause, timidity in venturing and general inability to act naturally and rationally as others do, because the treatment consisting of grain tablets can be obtained and taken without the knowledge of any one. If the reader has any of the symptoms, and decides to try it just go to any large well-stocked drug store and ask for three-grain Cadomene Tablets, and then take according to the directions which accompany each sealed tube. The tonic-invigorating power is soon feit and the joy of a healthy body experienced. These tablets, originally dispensed by prominent physicians and pharmacists, now are packed with full directions for self administration, so that it is wholly unnecessary to pay a physician for prescribing them. — ADVERTISE-MENT.

COUPON Day is the month-end clearaway of all odd lots, broken size assortments and odds and ends, and is always the great bargain event of the month. At this time of year many lines throughout the house are subject to Mid-Summer reductions.

But nevertheless the Law of the Coupon Day viz:

"All Coupon Items Must Be Priced Lower Than at Any Previous Time, Even if Already Reduced Before"

Has been rigidly enforced and works to make this June Coupon Day an extraordinary value-giving event.

All purchases made tomorrow and during the remainder of June will be charged on July account, payable August 1st.

Fitzgibbon had taken her to 3612 Lafayette avenue and, by match light, had shown her the interior of an unfurnished flat which he had selected as their home.

Mrs. Fitzgibbon testified she accompanied Fitzgibbon to East St. Louis to take a train for Cincinnati, where they were going on their honeymoon. Arrivtelephoned her mother. Counsel for Fitzgibbon asked if she

had told her mother she felt ashamed f what she had done. She denied she nade such a statement on that occasion, but declared she was ashamed. Goes to Visit His Sister.

Her husband, she said, asked her if sne wanted to go on to Cincinnati, and she replied by ricking up her suit case, starting for the train and replying, "I'll show you what I'll do."
After four days in Cincinnati they lett

When pressed for a reason, she declared he was unsympathetic, rough in his manner toward her and one time pushed her away from a telephone and cursed her, On leaving Sidney, after four days' visit, she testified, she telephoned to her rents. Her brother, answering th phone, told her that her parents were and could not come to the phone. Twelve hours after the marriage, she said, she conceived the idea of leaving her husband and wished she never had married him. She was quite unhappy, she said. They spent two weeks in St. Louis, furnishing the flat, and then went to Chicago for two weeks, where she tried to end her life. DETECTIVE IS 125TH SICILIAN FEUD VICTIM

Chicago City Council to Investigate "Blackhand" Killings During Last Three Years.

CHICAGO, June 25 .- Frank de Maria, a detective who was shot and killed in "Little Sicily" Tuesday, counts a total of 125 deaths in three years, the result of Sicilian feuds.

Not a man has been convicted or unished for these murders. The police cannot obtain evidence sufficient to convict. The City Council now is to investigate the entire series of slaughters. Almost all the victims were killed by shotguns from ambush. De Maria had been investigating the murder of Isaac Levin, a Chicago Heights produce merchant. De Maria was told if he did not drop his investigation he rould be killed.

Two men shot Levin and two men last night took part in the shooting of De Maria, It is with facts surrounding the Levin murder that the police hope to and a solution to the shooting of the Italian investigator.

This is the array of murders that confronts the Council Committee in its investigation of the "black-hand." 1911, 40; 1912, -33; 1913, 31; 1914 (to June 10), 20.

NEW YORK, June 25.—Mrs. Henry iegel had a bad half hour yesterday aftthe marriage of her daughter, Miss Dorothy Violet Wilde, to Earl Joseph Moon of St. Louis. Mrs. Siegel apparently had scented trouble, for there were two big police-men on guard at each side of the canopy. They saw the threatening attitude of the women, who held back until Mrs. Siegel had entered her carriage.

One of the women did manage to reach the door of the carriage just as t started and, hurling a letter at Mrs. liegel, screamed: "Give me back my \$9000."

The appearance of the women de-positors presented a strong contrast to the richly gowned bride, her mother and the wedding guests. The depositors were poorly clad. The contrast was made all the more vivid when Mrs. Siegel, wearing many jewels, and her daughter, whose adornments were no less plain to public view, drove away to the accompaniment of tears from the women massed around their carriage.

They were in no particular hurry to get to the church from the streets, apparently, for fully 25 guests were in the church waiting to be shown their seats before the ushers appeared. Aira. An Extraordinary Sale Friday of

\$2 Summer Blouses at

A large purchase from a well-known \$2 Waist House in New York, offered Friday at onehalf price.

THIS manufacturer only makes waists to sell at \$2, and he is known as the highest class & waist designer in New York. Before sailing for Europe to buy imported Fall Blouses for copying in his factories he called up our New York representative and offered us his entire collection of Summer Blouses at one-half regular wholesale price. We could not resist the temptation to secure his superb stock in view of the fact that it enabled us to offer you the very newest style d. fects, all Paris-inspired, at one-half the price you would gladly pay for waists so excellent.

Materials are striped Jap silks with organdy collars and cuffs, tub silks, allow embroidered organdies, voiles, lingerie and lace waists lined with net. The white voile blouses are so fine that they seem almost like marquisette, and there are endless effective trimming and collar touches.

Friday you can take your choice of over 1,000 ultra-fashionable \$2 blouses at \$1. Those who are skeptical can see typical values shown in our windows.

White Tub Skirts, With Long Tunics \$1.95 and \$2.95

EXTRAORDINARY values in excellently made skirts of crossbar creps, rice cloth, linen and ratine in both regular and extra sizes. The tunic as well as the underskirt fits snugly over the hips—the tunics flare midway between the knees and the ankles and are made in the correct long Russian effect. Naturally the underskirts are rather narrow, as this style is thoroughly approved. The range of materials, styles and sizes is very complete and the values unequaled in St. Louis.

Men to Surrender at Leavenworth Today to Serve Terms as Dynamite Conspirators.

Labor union comrades gave Paul J. Morrin and John W. Barry a demontrative farewell at Union Station Wednesday night, as the two left for Leavenworth, Kan., to resume the servng of their sentences in the Federal penitentiary, under their convictions in the dynamite conspiracy cases. Morrin, who was business agent for the international Association of Bridge and Structural Iron Workers, is under a -year sentence, and Barry, secretary of the local union. was sentenced for

Both have been informed that Presient Wilson will consider requests for a ommutation of their sentences. Mrs. Morrin, who is 26 years old, was prominent figure in the station demonstration. Her mother, Mrs. Helen Ross, was beside her, and Morrin spent the last five minutes before the train started in their company. Barry is a vidower with three children, who are iving with relatives outside the city. More Than 1600 at Station.

The large gathering at the station inluded 800 union iron workers, who had marched from their hall on Chouteau avenue, and an equal or larger number from the Building Trades Council headquarters on Locust street. At the sta-tion they formed a line, through which, on their arrival soon afterward. Morrin and Barry marched, shaking hands with the men in line, calling them by their first names and nodding appreciation of their good wishes and expressions of

The Morrins were taken to the station an automobile, and the two men had sleeping car reservations on the trip West. They were not under guard, as they were going to surrender themselves at Leavenworth under their appeal bonds. Charles A. Lammert, presient of the Building Trades Council, State Senator M. J. Cassidy, secretary of the same body, and Thomas J. Mc-Namara of the asbestos workers went on the train with them. They were notified that, at Jefferson City, a number of iron workers on the new State Capiol would join them, and would act as an escort to Kansas City.

Morrin and Barry gave out a typewritten statement, asserting that they were innocent of the charges of which they, with 22 others, were convicted in the United States Court in Indianapolis. The specific charge against Morrin and Barry was that of having knowledge of the interstate shipment, for unlawful purposes, of 45 pounds of dynamite. They mentioned, in their statement, their hope that President Wilson would soon grant commutations to them. The President Wednesday freed four of the onvicted men, announced that he would hear further applications in behalf of

These parts of the charter make it possible for the city to buy or build and operate street cars, telephones, electric lights or any other convenience for the benefit of the people. The city could establish automobile 'buses for the parks or the streets, build storage plants, supply heat or rerigeration from central plants, buy and sell provisions or do any kind of business that the people think would be managed more for their interests by the city than by private persons or companies.

As we have said before, it may never be neces sary to do these things, but the fact that we have the power to do them will keep persons and companies who do them from gouging us. St. Louis has a fine illustration of this in the

history of its gas companies. Gas cost \$4 per thousand cubic feet in 1876, when the old charter was adopted. That charter gave us the power to Mr. Taft. build gas works, but we did not have to build them. The companies were afraid we would and so the price has come down to 80 cents per thousand cubic feet. If we have the power to build other public utilities the persons or companies who operate them will be afraid we will and so
